session url I'm running cpanel whm on version 11 and am getting the following error every time I login Warning: session_start() [function.session-start]: Cannot send session cache limiter - headers already sent (output started at /home/username/public_html/wp-includes/pluggable.php:1345) in /home/username/public_html/wp-content/themes/theme/includes/connection.php on line 97 Warning: Cannot modify header information - headers already sent by (output started at /home/username/public_html/wp-includes/pluggable.php:1345) in /home/username/public_html/wp-includes/pluggable.php on line 1198 login successfully to cpanel and working fine Whats strange is that I can't remove this message and cannot get rid of it, I have googled and looked for help but have not found one answer, any help is greatly appreciated. A: You can try this as a workaround: function usort(\$myarray, \$comparator) { global \$wp_query; \$temp = \$wp_query; \$wp_query = null; \$wp_query = new WP_Query(); \$wp_query->query(array('post_status' => 'publish')); return usort(\$myarray, \$comparator); } usort(get_headers(), \$temp); It's a solution I've used to solve the same problem and it works. Happy family happy Happy family happy is a British TV programme which ran on Channel 4 for six weeks in March and April 2006. Each week, ten families were given a maximum of £35,000 to do anything they wanted with, for one year. Some of the families who took part included the first African British family, an atheist family and a family with no children. The programme won a BAFTA in 2006, and was nominated for a BAFTA in 2007.
